- Time Management
- Effective Communication

PROFILE

Passionate Web Developer and Programmer with foundation in Web development, data structures, and algorithms. Proficient in building dynamic web applications, optimizing performance, and implementing scalable solutions. Experienced in developing interactive and user-friendly interfaces. Enthusiastic about problem-solving, coding challenges, and staying up-to-date with emerging trends in software development. Seeking opportunities to apply technical expertise and creativity in a dynamic development environment.

EDUCATION

Bachelor of Technology   2022 - 2026
Vignan's Institute of Information Technology, CSE
CGPA: 9.3 / 10.0

Secondary Higher Education   2020 - 2022
Gowthami Junior College, MPC
CGPA: 965 / 1000

CERTIFICATIONS

- Python Essentials - Cisco Networking Academy
- Full Stack Web Development - Skolar
- Master C++ for Data Structures and Algorithms - AlgoZenith
- Postman API Fundamentals Student Expert certification
- Journey to Salesforce
- Salesforce AgentBlazer

PERSONAL PROJECTS

- **Amazon Clone Using HTML, CSS & JS**

  A beginner-friendly course on game development using Scratch, covering the basics of programming logic, interactive storytelling, and creating simple games.

- **Smart Water Meter System**

  Smart Water Meter System is a digital platform that tracks household water usage in real-time without hardware. It provides alerts for overuse or leaks, offers weekly reports, and shares water-saving tips through a mobile-friendly interface.

- **True Vision(Color Detection Web App) - Mini Project**

  TrueVision is a smart web app that helps people with color vision deficiency see and understand colors better. It also supports artists with accurate color detection and analysis, making everyday tasks and creative work easier and more accessible.

- **AntidoteHub**

  AntidoteHub is a platform that shows real-time antidote availability and helps users find the nearest pharmacy during emergencies.

INTERNSHIP EXPERIENCE

UniConverge Technologies Pvt Ltd
Full Stack Web Development Intern

Developed a Smart Water Meter System to monitor and optimize water consumption. Designed to calculate the flow rate and quantity of water consumed by households, transmitting real-time data to the cloud for tracking and analysis.

ACHIEVEMENTS

Salesforce AgentBlazer Champion
